

Employment Expo
Nov. 2, 2009

A Program Overview

Our Mission...to provide an educational environment to build and enhance employment search experiences.

Our Goal.....to introduce key players to help build sustainable families, businesses and communities. Presenting: corporations, large employers, business consultants and guest speakers.

Our Plan.....to invite program participants including but not limited to: employers, vendors, show promoters, event coordinators, live presenters and job-search attendees.

Our Producer..NABVETS is the official beneficiary of the Employment Expo. NABVETS has been successfully helping to connect the needs of local families with local service providers. During the past few years, the demand for family assistance programs has grown out of reach and NABVETS is working to stabilize these conditions.

Our Dream.....Built from heart, NABVETS delivers family wishes and pledges their continued support. Help us educate, enhance and empower job seekers with employment protocol, curriculum and the business tools they need to be successful.

When we put citizens back to work we build our families, each family saved protects and sustains our communities, each prosperous community builds our states...the very stars of our national heritage.
